User	User name who filled form
Registered	Date/time when record inserted
Gallons Used	Amounts of gallons consumed since previous visit
Gallons Added	Amounts of gallons bought in this moment
Time Elapsed	Days passed from last visit
Index	Performance Index

REPORT

Date	Gallons Used	Gallons Added	Time Elapsed	Index
15/01/2025	18	20	5 days	3.60 ↙
20/01/2025	19	22	6 days	3.17 ↙
30/01/2025	15	20	4 days	3.75 ↗
15/02/2026	16	22	6 days	3.75 =
28/02/2026	12	18	4 days	3.00 ↙
15/03/2026	19	22	5 days	3.80 ↗

DATE RANGE LIST SELECTOR FOR THE REPORT

90 days	This Month	Last Month	This Year	Last Year	All
---------	------------	------------	-----------	-----------	-----

The web will mainly consist of two forms: one for **data entry** and the **report** to show the records with a grid and chart

Later, depending on price, two more forms: a **user login** and **user management**

Later than... a **Dashboard**

The data will be stored on a local SQL Server database

All files (This web and database) will be on server with no internet access*

I wish it could be **responsive design** with a modern and professional look

If you can show/send a preview or refer to a similar project in your profile then better

Thank you in advance!
