Addis Ababa (Ethiopia)

About Me

I am a Full-Stack Software Developer and Computer Science graduate passionate about building secure and user-friendly digital solutions. I began my career at the Private Organization Employees Social Security Administration (POESSA), where I worked with large datasets and supported data-driven decision-making.

Presently, I work at the Information Network Security Administration (INSA), developing secure web and mobile applications and contributing to digital forensics initiatives. I enjoy solving real-world problems through clean, scalable code and continuously improving my technical skills.

Technical Skills

- Frontend Development: (React, JavaScript, TypeScript, HTML5, CSS3, Tailwind CSS)
- Backend Development: (Node.js, Express.js, Python, PHP)
- Database & Cloud: (MongoDB, PostgreSQL, MySQL, Supabase)
- Mobile Development (Flutter, Dart)

Soft Skills

Problem Solving, Team Collaboration, Communication, Adaptability, Time Management

Work Experience

Application Software Developer

Information Network Security Administration (INSA) – Ethiopia | Feb 2025 – Present

- Designed and developed secure, high-performance web and mobile applications using modern frameworks and clean architecture, helping improve overall system reliability and user experience.
- Built and maintained scalable backend APIs and optimized database structures to ensure efficient data processing and long-term system stability.
- Collaborated with cross-functional teams to debug, refactor, and optimize applications while aligning solutions with national cybersecurity standards and best practices

Data Encoder and Data Analyst

Private Organization Employees Social Security Administration – Ethiopia | Oct 2024 – Feb 2025

- Maintained and cleaned large datasets to ensure over 99% data accuracy, supporting reliable reporting and

informed administrative decision-making.

- Organized and digitized physical and electronic records, improving retrieval efficiency while maintaining strict confidentiality and compliance standards.

Projects

E-Commerce Mobile Application Flutter | Supabase | Feb 2024 – Jul 2024

- Built a scalable cross-platform e-commerce mobile app with secure authentication, payments, and admin management using Flutter and Supabase.

Web-Based Online Shopping Management System React | Node.js | Express | SQL | Jul 2024 – Feb 2025

- Developed a full-stack online shopping platform with secure checkout, order tracking, and user/admin dashboards using React and Node.js.

Job Portal React | TypeScript | Supabase | Tailwind CSS | Feb 2025 – Present

- Developing a responsive job portal with role-based access, job management features, and a scalable Supabase backend deployed via Vercel.

Education

B.Sc. in Computer Science

Assosa University – Ethiopia | Jun 2021 – Jul 2024

- Specialized in Software Engineering, Data Structures, Algorithms, Database Systems, and Computer Networks.
- Completed academic projects in full-stack web development, mobile application development, and system design.

Certification

Android Developer Fundamentals – Udacity | May 2024

Programming Fundamentals – Udacity | Oct 2024
